PROFILE

I am a web developer based in Casablanca. I have a full-stack development degree and I am a strong passion for front-end web development. My coding journey started as a hobby, and I honed my skills through self-directed learning and projects that I masters adaptive design, ensuring websites adapt perfectly to different devices and screen sizes. In addition, I excel in problem solving, a skill I have perfected in my current role, and I am committed to lifelong learning

EDUCATION

10-2021 – 07-2023
Casablanca

Technician specialized in digital development, ISTA CFPMS (OFPPT) - Hay hassani

09-2020 – 10-2021
casablanca

Bachelor of Science, high school Ibnou Al Yassamine

PROJECTS

Sport club, This project, which is part of my full-stack developer degree, is a complete sports club management system. It enables club administrators to efficiently manage activities and plans with CRUD operations. In addition, members can update their profiles easily.

URL shortener, The URL Shortener project, with its responsive design, simplifies URL shortening through an external API, generating more manageable links.

Portfolio, My portfolio site is a dynamic showcase of my career as a web developer. It is an ongoing project that reflects my skills, experiences and creativity.
